Sprint 86 (20/4 - 3/5)

2026-05-19 -- [Comments \(0\)](#) - [Releases](#)

Sprint 86 (20/4 - 3/5)

This sprint focused on giving firms more control over billing, matter access, and document branding.

1. Ability to lock a client for credit control reasons, ability to lock a matter for legal reasons RAMSDEN LEGAL

- **Summary:** Added matter locking so firms can pause work and billing on specific files while still allowing document filing where needed.
- **Assignee:** Igor

2. RMB Contract - Support letterheads to be applied at Office level - when creating or editing a Matter a user can select a specific letterhead which will be applied to all letter precedents generated on that Matter.

- **Summary:** Added office-level letterhead selection so documents generated from a matter automatically use the correct branding.
- **Assignee:** Igor

3. Edit Time Entry within Draft Invoice

- **Summary:** Added inline editing for time entry descriptions during invoice drafting so billing teams can refine narratives without leaving the invoice workflow.
- **Assignee:** Rafael

4. New Invoice Status Required (when Approval Flow in place) - Similar to Payment Approval

- **Summary:** Added invoice approval statuses so teams can clearly track where each invoice sits in the review flow.
- **Assignee:** Igor
